

5 Essentials for Government Huddle Rooms

Transform government huddle spaces into hubs of productivity and innovation with these must-have tools for seamless collaboration and impactful teamwork.

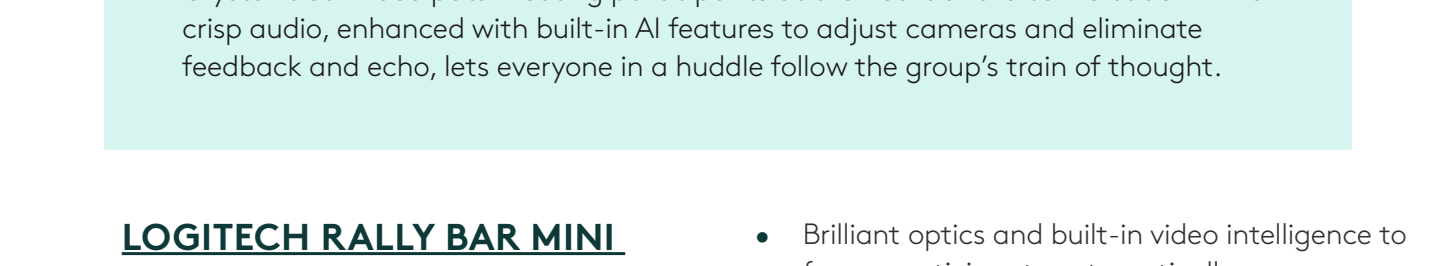

73% of meetings include 2 to 4 people yet 53% of meeting rooms are designed for 7 or more, resulting in wasted space and insufficient small meeting rooms.¹

Start with these five essentials.

Audio & Video

Crystal-clear video puts meeting participants at the heart of the conversation while crisp audio, enhanced with built-in AI features to adjust cameras and eliminate feedback and echo, lets everyone in a huddle follow the group's train of thought.

LOGITECH RALLY BAR MINI VIDEO CONFERENCING SYSTEM

- Brilliant optics and built-in video intelligence to frame participants automatically
- Advanced sound pickup and noise suppression ensure a clear and natural experience for remote participants
- Compliant with TAA and NDAA regulations
- Plug-and-play with leading video conferencing platforms used by governments including Microsoft Teams, Zoom, and Google Meet

LOGITECH TAP IP TOUCH CONTROLLER

- Optimizes video conferencing solutions like Rally Bar Mini
- Easily start and join meetings with just one tap
- Spacious display, sleek profile, and motion sensor for always-on readiness
- Single cable design and multiple mounting options help reduce IT support requests
- Works in rooms of all shapes and sizes

LOGITECH MEETUP CONFERRING CAMERA

- Ultra-wide lens for small rooms
- 120° field of view shows participants even if they're close to the camera or at the edge of the room
- RightSound optimizes the human voice and enhances conversational clarity while RightSight automatically adjusts the camera
- All-in-one design takes up less space and minimizes clutter

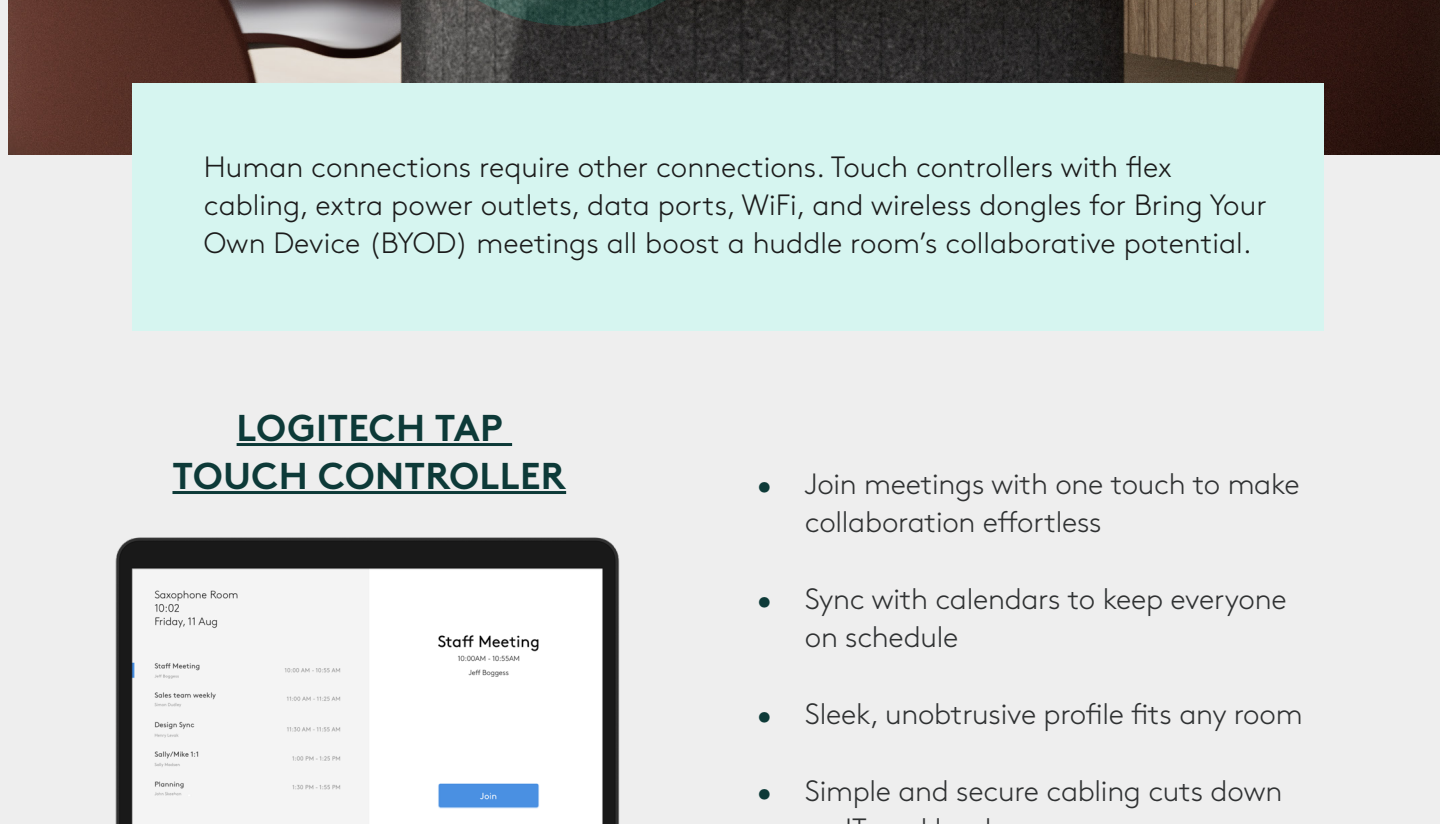

LOGITECH MEETUP 2 CONFERRING CAMERA

- All-in-one USB conference camera for small meeting rooms
- Simple set up with built-in AI-enabled audio and video features
- Compatible with popular video platforms such as Microsoft Teams, Zoom, and Google Meet, and can function in USB mode with either an in-room compute or when connected to a laptop in BYOD mode

Connections

Human connections require other connections. Touch controllers with flex cabling, extra power outlets, data ports, WiFi, and wireless dongles for Bring Your Own Device (BYOD) meetings all boost a huddle room's collaborative potential.

LOGITECH TAP TOUCH CONTROLLER

- Join meetings with one touch to make collaboration effortless
- Sync with calendars to keep everyone on schedule
- Sleek, unobtrusive profile fits any room
- Simple and secure cabling cuts down on IT workload

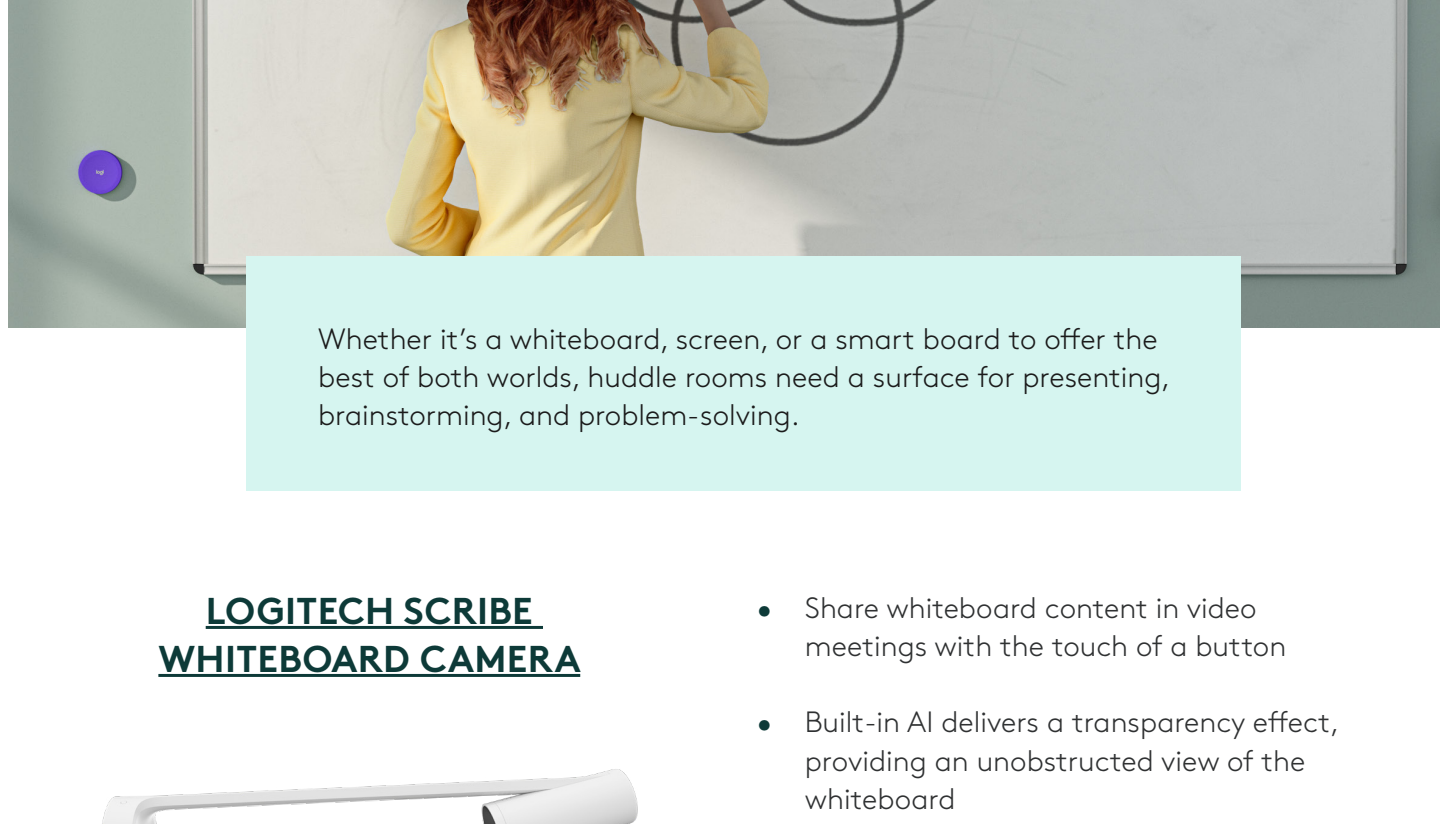

LOGITECH EXTEND

- Use a single USB-C cable to connect via BYOD (Bring Your Own Device) and start meetings instantly
- Eliminate the need for multiple cables, adapters, or dongles
- Seamlessly connect to preferred devices and platforms, ensuring smooth collaboration

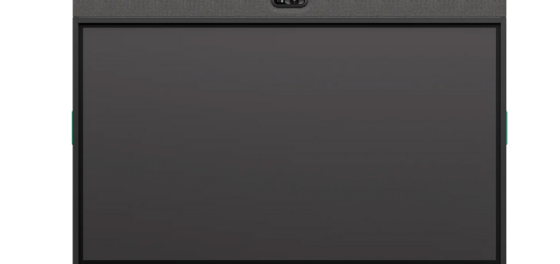

Displays

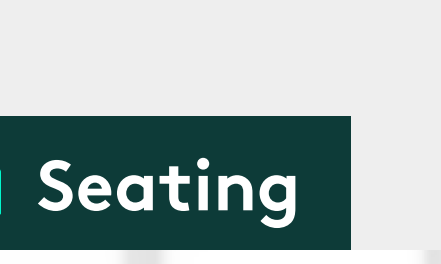

Whether it's a whiteboard, screen, or a smart board to offer the best of both worlds, huddle rooms need a surface for presenting, brainstorming, and problem-solving.

LOGITECH SCRIBE WHITEBOARD CAMERA

- Share whiteboard content in video meetings with the touch of a button
- Built-in AI delivers a transparency effect, providing an unobstructed view of the whiteboard
- Integrates with leading video conferencing platforms
- Clean, flexible installation

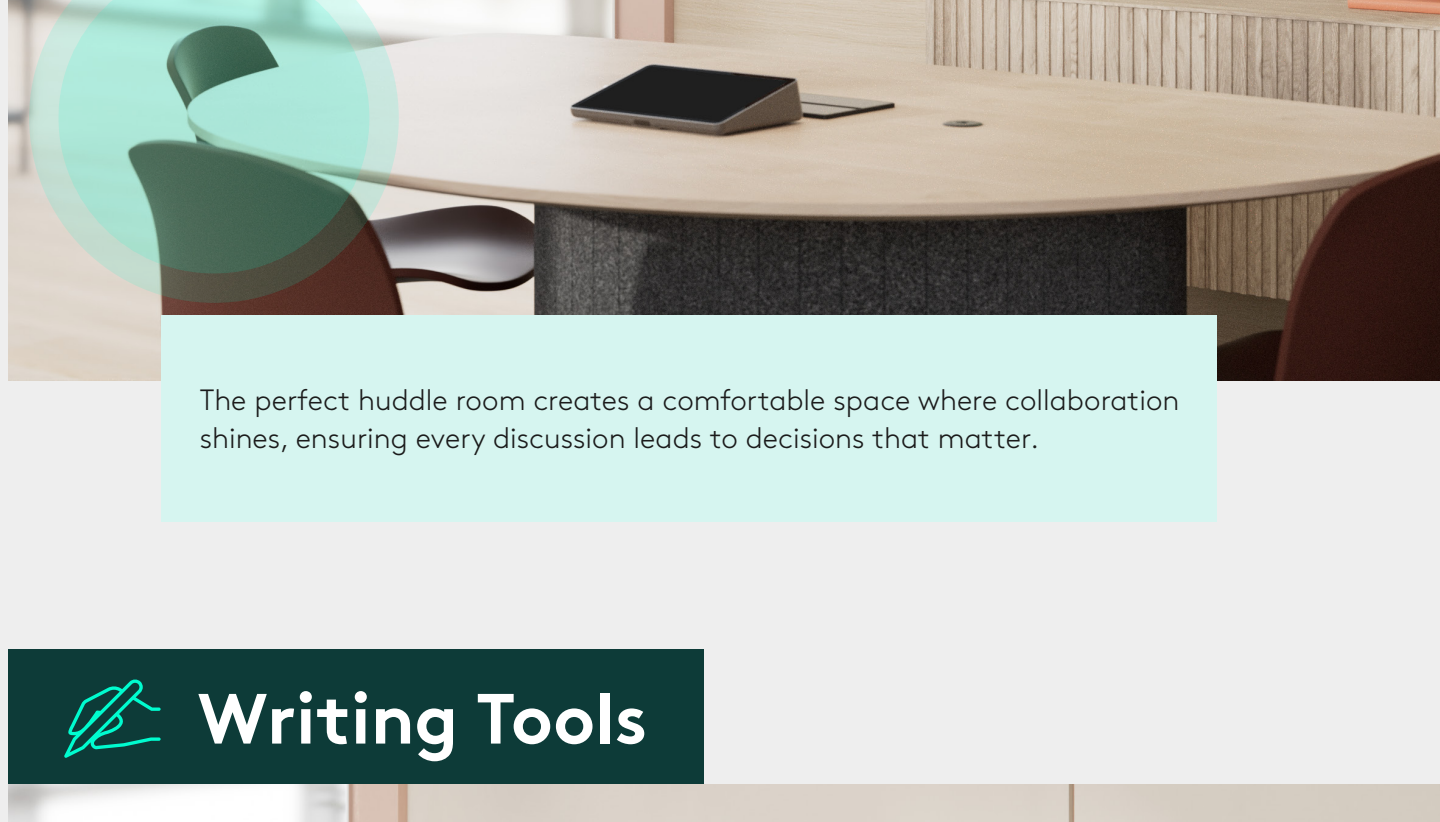

RALLY BOARD 65

- Simplify video conferencing with an easy-to-deploy, all-in-one collaboration device
- Combines powerful audio and video with 65-inch touchscreen display
- Quick and easy setup with built-in AI-driven features and flexible installation options
- Mobile cart options available

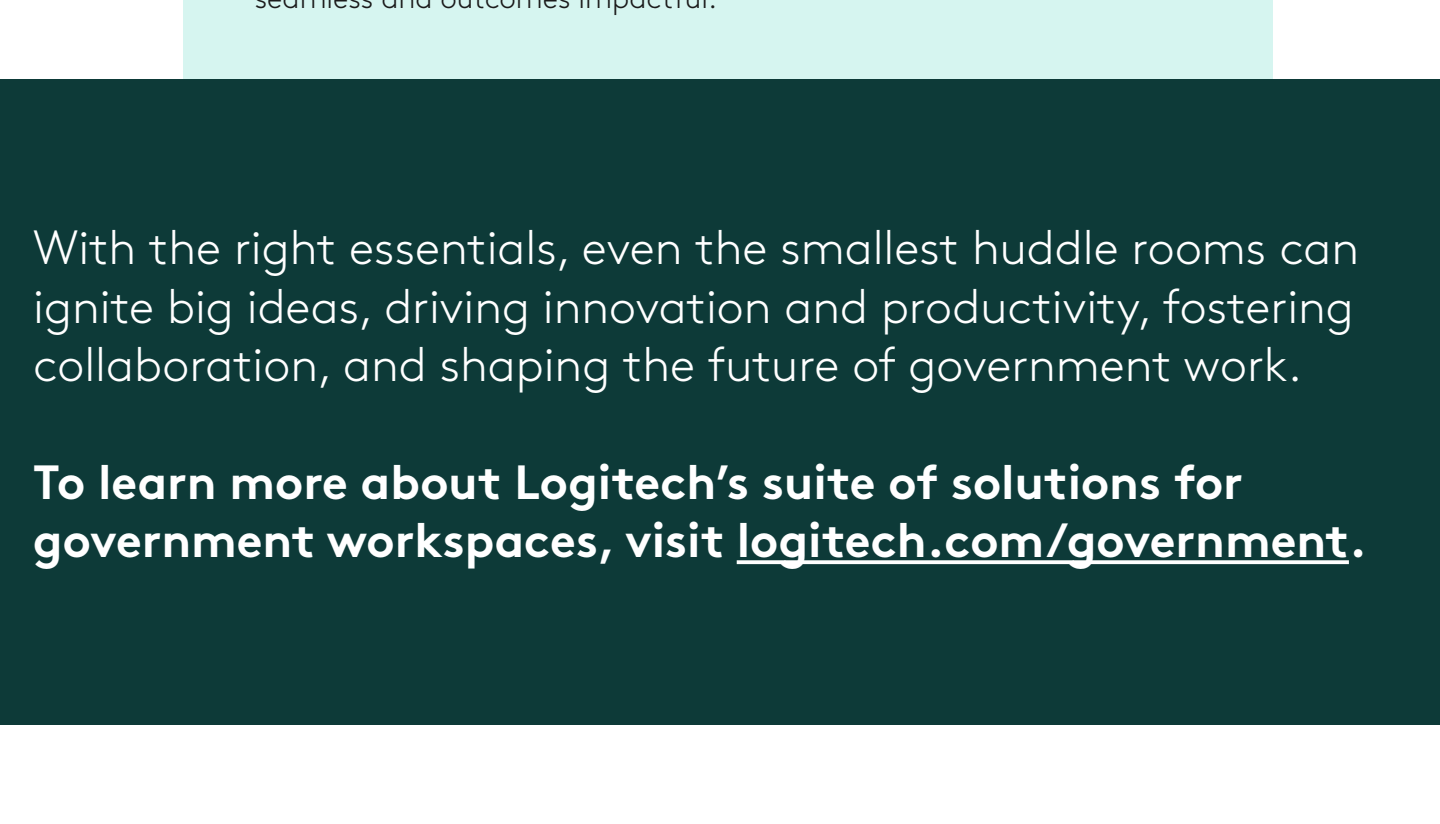

Seating

The perfect huddle room creates a comfortable space where collaboration shines, ensuring every discussion leads to decisions that matter.

Writing Tools

Government huddle spaces thrive when equipped with easy-to-access note-taking tools to capture actionable plans, keeping collaboration seamless and outcomes impactful.

With the right essentials, even the smallest huddle rooms can ignite big ideas, driving innovation and productivity, fostering collaboration, and shaping the future of government work.
