Lecture capture solutions for higher education classrooms

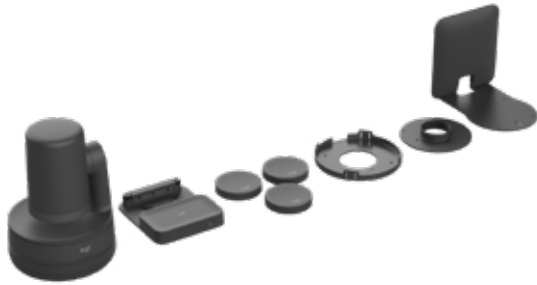

Introduction

Hybrid learning has fundamentally changed how we teach and learn. To effectively connect both in-person and remote participants, higher education increasingly relies on scalable, flexible, and intuitive video capture solutions. This guide compares two Logitech solutions to help select the right technology for today's campus environments.

Rally Camera Streamline Kit

Ideal for environments requiring simple, effective video capture with manual control.

Overview

A comprehensive USB PTZ video solution designed for hyflex teaching in large spaces.

Key features

Simplified control: Educators use wireless preset buttons to switch views, keeping them focused on teaching rather than technology.

Clean deployment: Uses category cable for connection and power (up to 100 meters), simplifying installation.

Reliability: HETMA Certified for higher education quality and service standards.

Ease of use: Seamless integration with existing operating systems and platforms.

Extras: Rally Camera Preset Buttons quickly pan/tilt/zoom camera to your location in the room.

Rally AI Camera Pro

Ideal for complex, large spaces requiring intelligent, automated video capture and advanced analytics.

[Learn more](#)

Overview

An intelligent PTZ camera with powerful optics and AI capabilities built for modern, complex academic environments.

Key features

AI-powered intelligence: Features RightSight 2 technology to automatically frame groups, individuals, and presenters, ensuring equitable meeting experiences.

Powerful optics: Dual-lens system with 15x hybrid zoom delivers crystal-clear video even in deep rooms.

Advanced framing: Includes Presenter, Grid, Group, and Speaker views to capture every interaction naturally.

Scalable integration: Supports single and multi-camera setups with seamless integration into Zoom Rooms and Microsoft Teams Rooms.

Actionable insights: Provides room occupancy and usage data via Logitech Sync to inform strategic decisions.

Extras: Rally Camera Preset Buttons quickly pan/tilt/zoom camera to your location in the room.
