

Students as creators

Empowering students to learn through content creation.

Dynamic media projects like videos and podcasts transform students into active creators, helping them build essential skills while taking charge of their learning.

Boost engagement

Allowing students to create content—such as podcasts—fosters essential communication skills and encourages active participation in their learning. Over 85% of students reported feeling highly enthusiastic when tasked with creating a podcast for a class assessment

Deepen learning and retention

Creating content promotes deeper learning and retention compared to passive consumption. In a 2022 study, students who produced their own educational podcasts scored 10% higher on post-tests than those who listened to podcasts created by their teachers

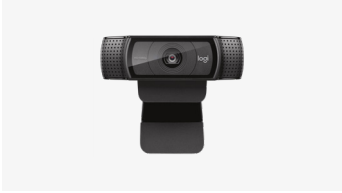

Improve learning outcomes

Project-based learning activities foster the development of higher-order thinking skills. One study found that students who created their own content videos in a flipped classroom setting performed significantly better than peers who did not participate in video creation

Logitech tools empower students to showcase their learning creatively and collaboratively through dynamic content creation, enabling seamless and impactful projects like videos, podcasts, and presentations that spark engagement and innovation.

At the desktop

C920e business webcam

An advanced HD 1080p webcam that delivers high-resolution video in virtually any environment, including low-light and harshly backlit settings. H.264 video compression and a generously wide 90° field of view.

Yeti Orb

Compact USB condenser microphone featuring customizable RGB lighting, Blue VO!CE presets, and professional-grade sound quality.

S150 USB stereo speakers

A slim, lightweight speaker design that offers simple controls and easy setup for a convenient listening experience.

MK120 corded keyboard and mouse combo

A mouse and keyboard combo that delivers a familiar, easy-to-use design and works right out of the box. Just plug in this corded combo via USB and go.

On the go

Logitech Mevo Start

The Logitech Mevo Start is perfect for students looking to create high-quality presentations, podcasts, or video projects. Available in single or three-pack options. Secure the camera on a tripod and connect it with the accompanying app on a phone or tablet for the best recording and streaming experience.

Rugged Combo 4 Touch

A versatile classroom companion for the new generation of iPad that gives students the power to engage with content holistically through four use modes: Type, Sketch, Read, & View. A Multi-Touch trackpad lets them swipe, pinch, and double-tap their way through any assignment. Schoolyard ready with military-grade protection, pluck-proof keys, and a sealed full-size keyboard.

These tools enable students to create engaging content that fosters collaboration, deepens learning, and builds the skills needed for future success.
