LOGITECH SCRIBE ACCESSORIES

Accessories for Scribe help you customize Scribe for rooms with various aesthetics and lighting conditions.

TAILOR SCRIBE TO YOUR MEETING SPACES

Logitech Scribe is an AI-powered whiteboard camera for Microsoft Teams® Rooms, Zoom Rooms™, and other leading video conferencing services. It's designed to effortlessly share whiteboards into video meetings.

Accessories to customize your Scribe:

- Share Button in White: replaces the standard purple share button for a clean look that works better in some rooms

- Polarizer: in rooms where very bright lighting reflects on the whiteboard, the Polarizer reduces glare while allowing Scribe to maintain both color and clarity

- Scribe Glass Mount: securely mounts Scribe on glass surfaces

- Scribe Secure Latch: securely mounts Logitech Scribe in place

SHARE BUTTON IN WHITE

The wireless Share Button for Logitech Scribe makes it remarkably simple to share whiteboards into video meetings. Using fingers, an elbow, or even a marker, presenters can press anywhere on the button to start or stop sharing. The Share Button is available in white as an alternative to purple to match your room.

System Requirements
